Project Updates

Discussion as to the 2020 Open Space Addendum.

Content:

Work out content order of the addendum at the end of the effort. For now, generally follow the outline, but have a very general big picture context statement/graphic as to where this effort lies within the context of city plans.

Process:

SG noted the two process routes: 1) As part of the city's Comprehensive Plan or 2) just a management plan applicable to just city properties. The subcommittee supports the comprehensive effort.

Generally target a discussion by the full Conservation Board in April. Follow that with Planning Commission then the Mayor's office. Then scope of work & RFP for consultant. Then follow up with public process with NPA's, Planning Commission, Parks & Recreation Commission, and the City Council.

Adjournment

5:30 PM.
